

## Science Fiction (Fact to Fiction GrafX (Paperback))

The Trailblazers series has been written for older children and young adults with a reading age of 5-8. The books are suitable for general reading or as part of a more structured reading program. Each book cover a strong, popular topic, with a colorful, attractive layout. Each book has a non-fiction and a fiction section. The fiction story appears in two formats-one with simple texts for poor readers; the facing pages contain an illustrated speech bubble version of the same story, for those who are just starting to learn to read. These two levels of entry give access points for children and young adults with different reading ages. Carefully limited vocabulary and simple sentences to reinforce reading skills, make the books suitable for even the poorest readers.
